

# Antoine M. Gaudin Award

The Antoine M. Gaudin Award, established in 1975, for scientific or engineering contributions that further understanding of the technology of mineral processing, in 2010 was awarded to Professor Janusz Laskowski. Professor Laskowski was presented with the award on Monday, February 28, 2011 at the SME Annual Meeting in Denver. The award is accompanied by a lecture of the award recipient's choice; Professor Laskowski's lecture was on "From Amine Molecule Adsorption to Amine Precipitate Transport by Bubbles: A Potash Ore Flotation Mechanism."

Professor Janusz Laskowski with Professor Roe-Hoan Yoon after the lecture.
