

Summer Internship Opportunities

Faculty Members from the Norman B. Keevil Institute of Mining Engineering submit project proposals for Summer Internships through the Mitacs Organization. The Mitacs Organization offers internship opportunities for students who meet the following requirements:

- Students from Brazil, China, India, or Mexico
- Students who will have completed their 3rd year of a 4 year program or their 4th year of a 5 year program by Spring 2012.
- Students with an 8.0/10 GPA or higher
- For more information or to apply for a summer internship visit:
<http://www.mitacs.ca/globalink/2012-student-application-0>
- The project proposals we currently have listed include:
 - Technical Feasibility Study on Pre-Concentration Technologies for Ore-Sorting; Dr. Bernhard Klein
 - Carbon Mineralization in Mine Tailings Brief description of the research project; Dr. Michael Hitch
- The application deadline is November 27, 2011
